

SMALL-BOWEL TRANSIT, ESOPHAGUS, STOMACH, AND DUODENUM X-RAY

DATE OF PROCEDURE	
TIME OF ARRIVAL AT THE RECEPTION DESK	

(The examination can be delayed because of the specific nature of the procedure)

In this examination, an oral contrast agent is administered under X-ray control and radiographic images of the target organs are taken.

This examination can be performed as a service paid for by the patient.

A medical referral or a request from the attending physician is required.

HOW TO PREPARE FOR YOUR APPOINTMENT:

You need to be in a fasting state—do not eat or drink anything in the evening before your appointment.

Medications

You should take your regular medications as usual on the day of your scheduled examination. If you experience any adverse symptoms **during the examination**, please inform the attending medical staff. You are advised to drink around 2.5 liters of non-carbonated water or unsweetened drinks **after the examination** in order to help your body eliminate the contrast agent.

Once the procedure has been completed, the physician will tell you when to collect your medical report. The report can be collected in person or with written authorization in Room 17 (turn right after you enter the hospital building), from Monday to Friday, **between 8:00 a.m. and 7:00 p.m.**
